### Comments

This is not a complete Financial Report

- From 28.12.2019 until the end of the financial year, all paypal transaction were blocated.
- SecureU association in Germany accepted donations on our behalf and paid some hosting bills with this money
- All paypal donations from january - june are lost as paypal refused the accept them during this time period. You will see in the next finance report a compensation paid by paypal thanks to the help of the Australian Financial Complaints Authority.
- There was more income as usual thanks to our donations campaign. This gives us about two years to find a stable income.
